STANDARDS AT SUFFOLK COUNTY FACILITIES**

WHEREAS, there was duly presented and introduced to this County Legislature at a meeting held on , 2014, a proposed local law entitled, "**A LOCAL LAW TO ESTABLISH HEALTHY FOOD STANDARDS AT SUFFOLK COUNTY FACILITIES**;" now, therefore be it

RESOLVED, that said local law be enacted in form as follows:

LOCAL LAW NO. -2014, SUFFOLK COUNTY, NEW YORK

**A LOCAL LAW TO ESTABLISH HEALTHY FOOD STANDARDS AT
SUFFOLK COUNTY FACILITIES**

**BE IT ENACTED BY THE COUNTY LEGISLATURE OF THE COUNTY OF
SUFFOLK**, as follows:

Section 1. Legislative Intent.

This Legislature hereby finds and determines that obesity is an epidemic throughout the United States among both children and adults, which can cause significant health problems such as diabetes and cardiovascular disease.

This Legislature also finds and determines that over 59% of Suffolk County residents are overweight or obese pursuant to body mass index (BMI) calculations.

This Legislature further finds that the County of Suffolk should adopt a leadership role in promoting good health and fighting obesity.

This Legislature finds that the County of Suffolk operates a network of parks, many of which feature concession stands that allow visitors to purchase a convenient meal. Other County facilities have cafeterias and vending machines that make food and beverages available to visitors and employees.

This Legislature also finds that concession stands in other areas of the country that offer healthy food and beverages are finding their businesses thriving, with increased profits and reduced production costs.

This Legislature determines that County park concessions, cafeterias and vending machines should offer healthy menu items that are readily available for purchase by visitors and employees to encourage consumption of fresh fruits, vegetables and whole grains and promote a healthy, active lifestyle.

This Legislature also finds that improving the food offerings available at County facilities will also showcase our vibrant local farming community, expose residents to organic foods and produce, and contribute to the improvement of Long Island's economy.

Therefore, the purpose of this law is to require that healthy food standards be incorporated into all future agreements with concession, cafeteria and vending machine operators.
